Key Outcomes of This Program

During this twelve-week Mini-MBA in Senior Living program with The University of Arizona's Eller Executive Education, your workforce will gain the business foundations, sector-specific knowledge, and transferable skills necessary to excel in senior living management.

Integrate foundational knowledge in economics, finance, accounting, and operations into senior living business practices with confidence.

Utilize cash, human capital, other resources, and their flow to impact positive change in your organization.

Confidently and fluently communicate about aspects of business administration with all levels and units in your organization.

Exercise your mindset and influence the mindset of others while making strategic decisions that enhance the performance of yourself and others.

Apply modern tools of business administration to solve real challenges and positively impact the trajectory of older adult service industry and their clientele.
