

Innovation in Healthcare Management
Release date: 12/15/2019
Renewed date: 1/1/2025 Expiration date: 12/31/2025

Activity Overview

By using real-world examples and applied scenarios, this experiential Certificate in Innovation in Healthcare Management enables participants to be more informed catalysts of valuable innovation. This ground-breaking healthcare innovation program was co-developed by the Associate Dean of Innovation for the world's top-ranked global management program and focuses on addressing current healthcare issues and real-world applicability of learning content.

Target Audience

This activity is intended to meet the needs of physicians, nurses and other healthcare professionals.

Learning Objectives

Upon completion of the educational activity, participants should be able to:

- Describe key trends in the healthcare industry.
- Recognize key environmental constraints impacting healthcare providers and healthcare service companies.
- Identify opportunities for innovation in the healthcare industry.
- Apply effective validation strategies for healthcare innovations.
- Identify ways to turn innovative ideas into valuable strategies and business models.
- Recognize planning models and payoff measurements for new innovation projects.
- Identify resource needs for new innovation projects.
- Outline techniques for encouraging others to adopt new innovations.
- Create a 90-day Delivery Plan that includes keys to delivering intended results.

Criteria for Success

To obtain a certificate of completion, a score of 70% or better on the post-test is required. Please proceed with the activity until you have successfully completed this program, answered all test questions, completed the post-test and evaluation, and have received a digital copy of your certificate. You must participate in the entire activity to receive credit. There is no fee to participate in this activity. If you have questions about this activity, please contact AKH Inc. at wendi@akhcme.com.
