## Activity Overview

The Mini-MBA in Healthcare certificate provides healthcare professionals with the training and skills to navigate the business of healthcare and to thrive during turbulent times. In this innovative online 12-week program, world-leading faculty, top executives, and champion athletes teach the fundamentals of performance, resilience, and leadership.

## Target Audience

This activity is intended to meet the needs of physicians, nurses and other healthcare professionals.

## Learning Objectives

Upon completion of the educational activity, participants should be able to:

- Integrate foundational theory in economics, finance, accounting, and operations into healthcare business practice with confidence
- Utilize cash, human capital, other resources, and their flow to impact positive change in their healthcare organization
- Confidently and fluently communicate about aspects of healthcare business administration with all levels and units in their organization
- Make strategic decisions that enhance the performance of themselves and others
- Exercise their mindset, and influence the mindset of others, to achieve greatness
- Apply modern tools of business administration to solve real challenges and win in an increasingly competitive healthcare environment.

## Criteria for Success

To obtain a certificate of completion, a score of 70% or better on the post-test is required. Please proceed with the activity until you have successfully completed this program, answered all test questions, completed the post-test and evaluation, and have received a digital copy of your certificate.
