

Mini MBA in Drug Commercialization & Product Strategy

Who we are

At OpusVi (Latin for Workforce), we partner with healthcare organizations to build transformative workforce solutions. We have developed a workforce development platform that enables healthcare systems and organizations to upskill and retain top talents. Dedicated to providing the best client experience, we have designed custom online and hybrid programs and workforce development solutions that improve and positively impact talent retention as much as patient health and quality of care. We remain leaders in the healthcare education space by creating scalable, cutting-edge solutions through innovative technologies, clinical expertise, and evidence-based training alongside the industry's top subject matter experts and academic institutions.

Why Choose OpusVi?

Train, upskill, and retain your workforce

Develop critical capabilities

Reduce costs to maximize ROI in education and training

Close your skills gaps and drive innovation

We come from healthcare and we exclusively serve the healthcare sector.

We empower the healthcare workforce, including leaders, to advance their careers while fostering an organizational culture of ongoing skills-building.

We want our learners to graduate with degrees and certificates from universities they can be proud of and earn continuing education credits from accredited, highly-ranked institutions that care about their success.

Our curriculum reflects the roles, job responsibilities, processes, and policies of the organization. It integrates expert-led training, mentorship, and engaging content.

A Playbook for the Drug Commercialization Process From Bench to Bedside

With a focus on disease prevention, customized treatments, digital therapeutics, and the ripple effects of COVID-19 on healthcare, the pharma industry is changing at lightning speed. Pharma professionals need to navigate both the regulatory and business realities of the drug commercialization process and bridge the gap between scientific innovation and business goals in order to lead successful go-to-market strategies.

OpusVi and the University of Arizona's Eller Executive Education have created the Mini-MBA in Drug Commercialization & Product Strategy to help you develop an understanding of pharmaceutical product development, commercialization, and regulations as well as the business and management skills that you need to master the drug commercialization process from bench to bedside.

24 CMEs/CEs

12 Weeks

100% Online

Insights and Expertise From Top Faculty, Leading Professionals, and Champion Athletes
